

Design - Visual Design

After sketching I jump into VD

Design Test

Here I have applied task based method for design testing with users

- The task was solved correctly without problems
- Problems occurred which delayed the test participant in carrying out the task.
- The test participant encountered considerable problems but eventually succeeded in completing the task correctly.
- The test participant was unable to complete the task or arrived at a result that deviated significantly from the correct result.
- The test participant arrived at a result that posed an existential threat to the test participant or other human beings.

Task	Details	P1	P2	P3	P4	P5
1	Find Parking Slots					
2	Filter by Vehicle type					
3	Are you finding free / parking slots					
4	Are you able to complete selecting slot and payment					
5	Navigation & Calling Parking premises people
