My research to after understanding the scope

Process Step 2:

- Code writing problem
- Connector testing problem
- Need more time to write code
- Multiple customer requests for same connector type

Defnne

# Solution:

- Web-based application
- Search functionality is important
- Show readymade connections
- Simple way create connections

# Selected Personas

3 Users Groups

3 Persons for each group

- Developers
- Sr/Jr Managers
- QA Leads

Hand-drawn sketch of a sidebar or menu area. It features a small rectangular box at the top containing a checkmark, followed by several horizontal lines representing text or list items.

Hand-drawn sketch of a "Configure SAP Connector" dialog box. The dialog has a title bar with "Configure SAP Connector" and a close button (X). The main content area is titled "Connection Details" and includes a tab labeled "SAP". Below the title, there are four input fields labeled "NAME", "Host Address", "User Name", and "Password". At the bottom of the dialog, there are three buttons: "CANCEL", "BACK", and "NEXT".
