# Consultancy Web Application

# UX Challenge

MOHAN PATCHA

Students need an advice on further studies about universities and colleges in other countries

# Users

New students, Pursuing students, Consultancy employees

# My research points after understanding the scope

# Process Step 1 :

- Students facing problem with consultancies
- Not able to find consultancy people give right information or not
- There should be a way to find which university is right based on grades
- Student want to choose the best university what is improvement required
- Need to have digital documents acceptance
- Scholarship Information required
- Education loan information required
- If you can provide part-time job details it would be good

# Empathise

# My research points after understanding the scope
